

# MONTE-CARLO INTERNATIONAL FIREWORKS FESTIVAL 2019

*July/August* Monaco

In 2018, the Competition's name changes into **Monaco Art en Ciel**. The Town Council wanted to give the prestigious event a true identity through this new name, which recalls the colors that will light the Monaco sky during the summer with four high quality pyrotechnic shows.

The pyrotechnicians, after having declared their candidacy, are chosen by the Town Council. The four selected societies will express their art from Quai Rainier III (the semi-floating dike) and gather their creativity and imagination to present high quality shows, of 20 minutes each.

A very powerful sound system is installed over the whole area of Port Hercule, allowing spectators to fully enjoy these exceptional shows from "Quai Albert 1er".
